The inner frame is a slightly bluish gray. Its colour can be adapted to any other choice of your own.

The larger formats are normally edited without an inner frame. The smaller ones normally include one. Your choice can be different.

The inner frame includes an artistically designed legend. The image itself is signed by the author.

The inner frame adds flexibility to better fit your own frame.

As a general rule, specific demands can be satisfied at an extra cost of 20 %.

Prints come from a Lambda imager and are mailed into rolls.

Prints can be glued on a number of supports, preferably by a specialist.
